## OBJECTIVE

Seeking an opportunity to showcase and explore my skills practically, efficiently, and effectively as an independent, self-motivated, and resourceful student. A dedicated problem solver, I am eager to expand my software development and problem-solving knowledge through hard work and continuous learning. Committed to collaboration and eager to contribute to team success.

## EDUCATION

**Bachelor of Technology in Information Technology.**

*S.A. ENGINEERING COLLEGE*

CGPA - 7.27

2023 – present | Chennai, India

**Diploma in Computer Science Engineering.**

*Murugappa polytechnic college*

Percentage - 69%

2019 – 2022 | Chennai, India

## SKILLS

### Programming Languages

Python, Java

### Frontend Technologies

HTML5, CSS3, JavaScript, Bootstrap

### Databases

MySQL, MongoDB, Firebase

### Tools

Git, Postman, Figma, Canva

### Backend Technologies

NodeJs, Express, Flask

### JavaScript Libraries

ReactJs, Redux

## PROJECTS

### Hunger Free [🔗](#)

*Food Donating App*

- Utilizing React.js and Firebase, this project earned recognition, showcasing my proficiency in modern front-end technologies.
- Developed **Web APP** and **Website**, for better user interactions.

### Printing Press Website [🔗](#)

- Leveraging React.js and Bootstrap 5, this project highlights my knack for delivering sleek and responsive design.
- Hosted online using Vercel.

### Restaurant Website [🔗](#)

- Developed with Flask and MongoDB, featuring seamless integration of Stripe for secure payment processing.

### Student Learning Website [🔗](#)

- Collaborated on the front-end using React.js while driving backend development with Node.js and MongoDB.
- Full Stack application created using **MERN** stack.

## ACHIEVEMENTS

- Won Third place on Project Expo for Hunger Free Project.
- Solved over **1030 problems** on coding platforms, including Skill Rack [🔗](#).

## CERTIFICATES

- React and Redux Course [🔗](#)
- Frontend Development Intern [🔗](#)
- Front-End Software Job Simulation [🔗](#)

## HOBBIES AND INTERESTS

Problem-solving, Reading tech articles, Exploring AI Tech and Content Creator.
